On 8/18/24 I attempted to post whistleblower and cyber crime victim evidence content on YouTube using my iPad. Each time I tried to post my content disappeared.

Cyber criminals blocked my information intending to keep my crime evidence hidden and unknown to avoid accountability.

Screen shots #1 - 7 that follow and the enclosed video detail the sequences showing my posted content disappering from my iPad screen. The cyber attack/hacking occurred immediately after I pasted it in the "Newest" and "Top" areas of the YouTube "Comments" portal.
