

On 9/5/24 at 7:03 a.m. Hawaii Standard Time I submitted a request for an investigation and intervention to the Republican National Committee (RNC), referring to my various crime evidence website, links, and other data. My content included stolen identity notifications, facts validating whistleblower retribution, dozens of first and fourth Amendment violations, and other crimes, all known by low echelon agents through high-level government officials.

Although I received a submission validation from the RNC website, I surmise cyber criminals who conduct illegal surveillance of my network intercepted my submission and blocked it to prevent receipt. Such an action would be one of the more than 350 email, text, website, phone, and fax attempts I and hired staff have attempted that have been blocked via cyber attacks.

My claim can be verified via a query to the RNC staff asking if my website submission was received on 9/5/24 at 7:03 a.m Hawaii State Time. I submit it was not, further supported by no contact was made with the public service professional assisting me, Hawaii State Representative Republican Diamond Garcia.
