

To block my communication with outside agencies, cyber criminals block selected outbound and inbound calls to my 808 255-9701 cellphone and 808 582-8806 computer-based phone numbers. This file lists 32 phone calls made between June 26, 2023 and July 26, 2023 to agencies from which I did not receive replies after leaving voicemail messages. As an example, 11 phone calls made to (202) 225-2676, Senator Jim Jordan, Chairman of the House Of Representatives Judiciary Committee investigating whistle blower claims received no answer or reply.

A series of 14 calls made to Ms. Joyce Kuo, (626) 478-7753, a news reporter at the Epoch Times news service received no answer or reply. Another 8 calls made to Ms. Kuo at various times day and night only received voice mail with no return call.

Another 18 calls made to various attorneys and whistleblower protection organizations in September 2023 remain unresponsive. A total of 50 phone calls not resulting in a single connected phone conversation is not likely.

If you call my numbers and receive voice mail, a ring with no answer, or a busy signal, it is not because I am busy or inattentive to inbound calls. It is because the cyber criminals have compromised my phone numbers and block the communication. Normally I would go to law enforcement, however law enforcement is allowing the compromises to happen. I am seeking ways to resolve this critical problem. In the meantime please contact me via email at the various addresses listed at this website. If your email to me bounces or you do not receive a reply, the cyber criminals have hacked my email accounts too. I am seeking ways to resolve this critical problem too. Please keep trying to reach me.
