

On May 5th, 2024, Fox TV and radio show host Shawn Hannity was talking to South Dakota Governor Kristi Noem. Discussing perceptions, status, and honor, Shawn elaborated on how little he cared what people thought of him as he was going to do what was right. I immediately thought of what the weaponized, corrupt cabal thinks of me. The interaction in the attached emails that follow clearly sums it up.

Chillingly, what was said to me at a December 2021 meeting by a member of law enforcement who took an oath to serve and protect was as much a wish as it was hyperbole. Later, prayer revealed I sat across from a demon. Thus I know my fight and the weapons to use as described in the Bible in Ephesians Chapter 6, verses 10 to 20.

God Almighty, The Lion Of Judah remains on His Throne.

Aloha, ~~Captain~~ Maddock...

**Lieutenant**

To date, I have not received the return phone call concerning my case as you promised at the conclusion of our meeting on 12/17/21. At this point nearly two weeks later I can only conclude there is no intent to call me back. The choice to do so is very disheartening, but even more so is **your conclusion that the online harrasment, sophisticated cyber attacks, and illegal cellphone wiretapping I've referenced is not factual but instead I am paranoid.** While it is a convenient narrative to claim I am paranoid and discount all I have presented, with all due respect sir, as a police officer your assessment of my mental state cannot be qualified as certain. However, what is certain are the facts involved with my case which I have presented that, for whatever reason, are being ignored.

At the end of our meeting I provided an evidence website I had built at <https://bit.ly/380Qug8>. It shows:

- video evidence revealing my cellphone being operated remotely
- forensic evidence proving my cellphone was compromised
- audio evidence proving my voice calls were intercepted and scrambled to prevent clarity and understanding
- proof I was stalked and received cyber attacks while receiving service at the Kahala Mall Apple Store
- proof my keyboard encryption program has been compromised and rendered unsecured
- an example of a malicious file (AGCInvokerUtility.exe) installed in my computer for "backdoor" entry that disabled my computer
- proof I received (and continue to receive) Man-In-The-Middle attacks allowing my emails to be read
- proof my router was reconfigured to block my iPad from connecting

In my many police statement filed in 2021 culminating in my submission on 11/30/21, I presented visual evidence proving my PC had been accessed maliciously during its first startup with a new operating system. I provided irrefutable evidence cyber criminals breached and compromised my email account. I offered saved audio to prove my phone conversation with a Hawaii state office was illegally intercepted and scrambled. I gave contact information for a witness that validated a UPS shipment containing cyber crime evidence I sent to the Epoch Time newspaper was intercepted and stolen to prevent receipt. I provided information to trace and locate the cyber criminal who stole my shipping credentials and harassed me online by using my information to make illegal shipments in my name. These facts cannot reasonably be denied, yet all were found irrelevant.

My request to examine the USB thumb drive I submitted that triggers a scan warning and has the source of computer infection was denied. My request to visually examine a compromised PC that replicates the malicious process used to infect my other devices was denied, along with ignoring the resulting financial losses. My request to examine a laptop that upon examination revealed numerous malicious rootkits had been installed was denied.

**You questioned why such an investment of time and resources would be expended to keep me offline and silent.** As one of four targeted whistle blowers who were involved in exposing years of abuse of a US Army officer whose family had a presidential inquiry stifled, and whose son and brother ultimately died under mysterious circumstances, those involved in the crimes certainly want all concerned

silenced. Dr. Harrell knows the circumstances with her brother intimately. She will validate what the cyber criminals want to stay hidden and vouch for why I am stalked and attacked so incessantly.

Since my visit with you I secured the services of efani.com, a firm that provides secure cell phone SIM cards for protection. For the past four days I have had an iPhone 7 in operation on the efani.com network. After making initial email and text connections to a local contact and a Mainland forensics firm seeking help, I no longer receive communication from either party. Our communication is blocked. This has happened repeatedly as I indicated in my 11/30/21 HPD statement.

My request to examine my compromised cellphone was denied. Now the criminal evidence inside that cellphone cannot be revealed. I woke up today to find that sometime during the night cyber criminals changed the passcode to enter my daily use iPhone 10/Xs on the Verizon network from a combination of seven alpha characters and digits I had set, to a requirement for six digits to be entered which I do not know, thus rendering my phone inaccessible. It is not mere coincidence that the day after I contact a forensics firm about examining my iPhone the passcode for the phone changes overnight locking me out of the device. I don't know how I'm going to restore my cell phone communication as I do not have a secure computer I can use to wipe my phone and resume using it.

**You questioned why haven't those who are involved in the criminal act haven't killed me.** As much as possible, the criminals want as little attention as possible focused on me. Is it not the case that were I murdered, wouldn't the first question asked by investigators be who would want me dead? My family and others know about the whistle blowing and the desire to keep all hidden. That having been said, I am more concerned for my safety now than I have been at any point during this 5+ year nightmare.

I ask that you assess the totality of the circumstances involved in my case, reconsider your position, and intervene today. It is not just me. My wife and granddaughter have been victimized too. If you will not reconsider, please advise today. I am contacting you from an encrypted email source. Please reply first with an email containing the word "Reply". Once I respond to your email our encrypted loop is closed. Then please send your decision in the second email. Thank you for your time@

Mahalo,

Ricardo **Finney**

**Lt. Maddock questioned my mental stability and asked the two questions with full knowledge I received targeted cyber attacks daily. He clearly understood every one among the dozens of cyber crime reports I filed for years were valid and each warranted immediate law enforcement intervention.**

**Refusing to act was reprehensible, Dishonorable. An oath-buster. The questions asked were evil. No other purpose was served.**

Hi Ricardo,

I have reviewed the material in your reports and on your website. I still do not see any sign of actual hacking. The things that you are reporting appear to be normal computer issues or spoofing by scam callers. I have outlined a few of these in the attached Word document.

Lieutenant Andrew Maddock  
Honolulu Police Department  
Criminal Investigations  
Cyber Crimes, Digital Computer Forensics and Crime Analysis

Aloha, Lt. Maddock...

**According to Lt. Maddock at our meeting , I was paranoid and imagining compromises occurred instead of the malicious events I reported being actual hacking events.**

Hi Ricardo,  
I haven't had a chance to finish reading all of the reports that you submitted. Once I finish I will give you a call. The link to your website: <https://bit.ly/380QUg8> does not appear to be active.
