

On 5/25/24 I received a reply from AOL notifying me an email with cyber crime evidence I attempted to send to a media source was blocked. Cyber criminals intercepted the email sent through my iPhone they illegally monitor.

The AOL response to my attempted submission stated "Relaying Denied"

This failed submission is one of over 300 emails, faxes, and phone calls I, or those I've hired have attempted to send or make to media, whistle blower advocates, lawyers, federal oversight agencies, and cyber security companies, all documented. They have been intercepted and blocked to prevent exposure.
